INFORMATION DISCLOSURE STATEMENT

Sir:

In accordance with 37 C.F.R. 1.98, I am submitting a completed "INFORMATION DISCLOSURE STATEMENT BY APPLICANTS" (*Form PTO/SB/08A*) with patents and/or publications as delineated therein attached.

DE 87 08 238 U1 discloses a floor vacuum cleaner with a vacuum cleaner housing having a rear wall, an upper and lower section and having an engine blower area, dust collecting area, an area for a cable winding-on equipment, and an exhaust air filter covers. The housing sections and the individual areas are sealed by means of a joint sealer, and the joint sealer also forms an impact guard for the vacuum cleaner housing. The joint sealer connects the impact guard (10) around the overall vacuum cleaner housing and is broadened in the area of the rear wall.

DE 33 30 201 A1 discloses that a floor vacuum cleaner has a handle 4 with a continuous gripping opening in the region of a short front narrow side of the housing 1. On the outer contour of the handle 4 there is a bumper strip 5 guided up to the adjacent long narrow side 7. In order to achieve an improved protection of the housing in the frontal region, the bumper strip 5 is assigned an attachment 8 which extends at least over a partial area of the narrow side 2 assigned to the handle 4.

DE 87 11 960 U1 discloses a vacuum cleaner housing for a floor vacuum cleaner having a flexible impact protection. The impact protection volume consists of a ridge (6) that is fastened to the vacuum cleaner housing (1, 2) with a long side (7) opposite the vacuum

cleaner housing (1, 2) extending diagonally outward. A pitch exists between the attachment place of the ridge (6) to the vacuum cleaner housing (1) and up to its free long side (7).

If no translation of pertinent portions of any foreign language patents or publications mentioned within the "INFORMATION DISCLOSURE STATEMENT BY APPLICANTS" is included with the aforementioned copies of those applications, patents and/or publications, it is because no existing translation is readily available to the Applicants. As per the Notice in 1273 OG 55 (August 5, 2003) no copies of any above-mentioned US patents and US patent application publications are submitted for this application which was filed after June 30, 2003.

Respectfully submitted,

Craig J. Loest
